TS-HK-AA25712

3 July 1970

ACTIONS TAKEN TO IMPROVE INTELLIGENCE CAPABILITY

1. Two low level, hand held, aerial photo reconnaissance missions were flown over area reportedly occupied by COSVN. Sorties were flown by MACSOG resources to exploit areas where other aerial reconnaissance efforts have proven inadequate due to multiple canopy cover. No significant enemy activity was noted, however, subsequent missions are scheduled for 3 July.

2. MACV has made a realignment of airborne direction finding sorties with the effect that there will be fewer such sorties over the interior of Cambodia in the forthcoming week. There will be an increase in sorties over the Cambodia/South Vietnamese border area and within South Vietnam.

ARMY review completed.
